PROFESSIONAL SUMMARY

Information Systems undergraduate with hands-on experience developing and maintaining business web applications. Focused on PHP, Laravel, JavaScript, MySQL, and REST API integration. Contributed to Employee Benefit systems, insurance claim workflows, corporate websites, and content management systems. Experienced in debugging, feature testing, and collaborative source-code management using Git and Bitbucket.

WORK EXPERIENCE

Information Technology Support Intern | June 2025 – Present

PT Sarana Janesia Utama Insurance Broker

- Developed and maintained Laravel-based internal web applications, including an Employee Benefit health insurance management system.
- Contributed to the development and adjustment of Endorsement and Claim modules to support business workflows.
- Redesigned the interface and improved navigation and workflows of the ASKEDIR personal accident claim management system.
- Developed and maintained the corporate website and Laravel-based admin CMS.
- Integrated frontend and backend functionality through REST APIs, worked with MySQL queries, and performed debugging and feature testing.
- Collaborated on source-code management using Git and Bitbucket.

Web Developer Intern | July 2024 – September 2024

PT Ret Technology Solutions

- Developed website features and web applications for student administration and payroll data management.
- Maintained databases, resolved application issues, and performed functional testing before release.
- Assisted with WordPress website development using Elementor and LottieFiles.

EDUCATION

Universitas Nusa Mandiri — Bachelor’s Degree in Information Systems (in progress) | 2025 – Present

SMK Raflesia — Software Engineering | 2022 – 2025

FAIZ PRATAMA
